## **FOREWORD**

This brochure presents all of the amendments to the Nomenclature appended to the International Convention on the Harmonized Commodity Description and Coding System which have been accepted as a result of the Customs Co-operation Council Recommendation of 27 June 2014, which will enter into force on 1 January 2017. It also includes the amendments to the Nomenclature which have been accepted as a result of the Council Recommendation of 11 June 2015, to take account of the necessary corrections, as well as some further amendments to the Nomenclature in respect of heading 44.01 and certain subheadings of Chapter 44, inadvertently omitted from the Council Recommendation of 27 June 2014. These complementary amendments enter into force on 1 January 2018. The HS Contracting Parties are, however, encouraged to apply these amendments from 1 January 2017.

All of the legal texts of the amendments have been reproduced and their background, nature and scope are briefly explained. The amendments are commented on individually item by item.

The introduction sets out the origin and general scope of the updating project and outlines the rules for assigning code numbers to the subheadings created or amended. The Annexes provide specific information on the scope of the amendments.

This brochure is designed to facilitate the interpretation and implementation of the legal texts but is only a guide and has no legal status.

\* \* \*

## **INTRODUCTION**

### **I. Background to the updating of the Harmonized System**

The Preamble to the International Convention on the Harmonized Commodity Description and Coding System emphasizes the importance of ensuring that the Harmonized System is kept up to date in the light of changes in technology and patterns of international trade.

Article 7 of the Convention further states that it is for the HS Committee to propose such amendments to the Convention as may be considered desirable, having regard, in particular, to the needs of users.

At its First Session, the HS Committee decided to set up the Harmonized System Review Sub-Committee, which has the task of revising the HS in accordance with the Committee's general indications and preparing the necessary amendments to the HS Nomenclature.

The Committee also agreed to allow an interval of four to six years between each Recommendation amending the HS Nomenclature under Article 16 of the Convention.

In this context, it was decided to effect a general review of the HS Nomenclature, and a draft amendment was submitted to the Council by the HS Committee on the basis of the texts drawn up by the Review Sub-Committee.

At its 123<sup>rd</sup>/124<sup>th</sup> Sessions held in Brussels from 26 to 28 June 2014, the Council adopted the Article 16 Recommendation amending the Harmonized System.

On 3 July 2014, the Secretary General of the WCO notified Contracting Parties of the amendments adopted by the Council, drawing attention to paragraph 2 of Article 16 of the Convention which stipulates that any Contracting Party may notify the Secretary General of an objection to a recommended amendment.

Having received an objection against the amendment of the name "Imbuia" in the text of subheading 4407.22, this amendment was deleted from the Recommendation. The pilot name "Imbuia" is correct.

All other recommended amendments were deemed to be accepted and will enter into force on 1 January 2017 in accordance with Article 16.4 (b) of the Convention.

After the acceptance of the amendments mentioned above, the Contracting Parties highlighted the need to make certain further corrections and amendments, to accommodate :

- (1) replacement of several references to five-digit codes in certain subheadings of headings 03.02 and 03.03;

- (2) alignment of the texts of HS 2017 subheading 6304.20 and new Subheading Note 1 to Chapter 63;
- (3) certain further amendments to the Nomenclature in respect of heading 44.01 and certain subheadings of Chapter 44.

In order to take account of the necessary corrections and further amendments mentioned above, the WCO Council adopted on 11 June 2015 another Recommendation aimed to amend the HS.

The amendments included in this Recommendation have been identified in the middle column of the part regarding the "Explanation of the Amendments" of this brochure by a (+) sign and the right hand column includes a particular explanation.

It is to be noted that, as agreed by the HS Committee, the amendments mentioned in (1) and (2) above will not be binding on the Contracting Parties until they enter into force on 1 January 2018 under Article 16 of the HS Convention. Nevertheless, under the corrigendum procedure, the Contracting Parties will be free to apply these amendments as from 1 January 2017 to reflect the situation as from that date. The further amendments to the Nomenclature mentioned in (3) above, which had been inadvertently omitted from the Council Recommendation of 27 June 2014 concerning the 2017 amendment of the HS Nomenclature will enter into effect on 1 January 2018. The HS Contracting Parties are, however, encouraged to apply these amendments also from 1 January 2017.

## II. General scope of the amendments

The Recommendation of 27 June 2014 is the sixth to amend the Harmonized System under the Article 16 procedure since the Council approved the Harmonized System Convention in 1983, though it is only the fifth to make major amendments of the Harmonized System. The Recommendation includes **233 sets of amendments**, divided as follows : agricultural sector 85; chemical sector 45; wood sector 13; textile sector 15; base metal sector 6; machinery sector 25; transport sector 18; other sectors 26.

The Committee did not confine itself to examining matters linked to changes in technology or patterns of international trade. The opportunity was taken to clarify certain texts in order to facilitate the uniform application of the HS and to provide legal certainty with regard to classification decisions taken by the Committee. Other texts have been amended to render them more consistent with scientific or customary terminology or with trade practice.

**Environmental and social issues of global concern** are the major feature of the HS 2017 amendments. The majority of these changes to the HS have been broached by the FAO (Food and Agriculture Organization of the United Nations).

The major revision introduced in the HS 2012 for fish and fishery products has represented a major step forward to have a wider coverage of species and product forms. Due to the importance of the HS in the collection of trade statistics, the main aim of the HS 2017 amendments for fish and fishery products is to further enhance the coverage of species and product forms which need to be monitored for food security purposes and for better management of resources, in particular for endangered species. The split by more

detailed product forms for crustaceans, molluscs and other invertebrates is motivated by the importance of trade and consumption of these species in the various product forms. The proposed subdivisions enable a better correspondence between the HS and the United Nations Central Product Classification (CPC).

The HS 2012 codes for cuttlefishes and squids cover only about 50 % of total fishery production of these species as well an important share of the species traded. In particular, species of families *Illex* and *Todarodes* are not included, even though widely traded. Therefore, the HS 2017 amendment is to extend the coverage of the present codes for cuttlefishes and squids in order to have all those species grouped. At present, a significant share of cuttlefish and squid trade is recorded under residual codes for molluscs (under 0307.9). Cuttlefishes and squids, as well as other cephalopods, are very important for human consumption.

Due to the importance of the HS in the collection of trade statistics, the amendment for forestry products aims at one main area : enhancement of the coverage of wood species in order to get a better picture of trade patterns, including endangered species. In particular, separating the data on tropical wood trade will both serve to focus attention on the important issue of tropical wood use and clarify data on non-tropical hardwoods. Detailed data on wood products are extremely important for estimating raw material and product balances, energy balances, carbon sinks/emissions and measuring carbon in harvested wood products in the forestry sector. Improving species information enables more accurate measurement of the actual content of carbon and energy in traded wood. The HS 2017 amendments also include the creation of new subheadings for the monitoring and control of certain products of bamboo and rattan, requested by the International Network for Bamboo and Rattan (INBAR).

Nearly one-half of the world's population lives at risk of malaria. An estimated 243 million cases of the disease occur worldwide each year, claiming some 860,000 lives annually. Countries most at risk from malaria generally lack sufficient internal production of anti-malarial commodities to meet their needs and must rely on imports. Much of the trade in these goods arises from governmental and non-governmental organizations, which have been working for many years on the universal eradication of malaria. The HS 2017 amendment aims at detailed information for several categories of products that are used as antimalarial commodities, namely, Long Lasting Insecticidal Nets (LLIN), Antimalarial pharmaceuticals, Insecticides for Indoor Residual Spraying (IIRS) and Rapid Diagnostic Test Kits (RDT). This will facilitate customs classification and entry of these life-saving products into commerce.

The HS Nomenclature 2017 Edition also introduces specific subheadings in order to facilitate the collection and comparison of data on the international movement of certain substances controlled under the Chemical Weapons Convention. Also, new subheadings have been created for certain hazardous chemicals controlled under the Rotterdam Convention and for certain persistent organic pollutants controlled under the Stockholm Convention. In some cases there is a confluence of control regimes for chemicals by both the Rotterdam Convention and the Stockholm Convention. The Rotterdam Convention provides early warning on dangerous chemicals and prevents the unwanted international trade on certain chemicals. The Stockholm Convention controls and eliminates production and use of persistent organic pollutants (POPs). Furthermore, at the request of the International Narcotics Control Board (INCB), new subheadings have been created for the monitoring and control of pharmaceutical preparations containing ephedrine,

pseudoephedrine or norephedrine, and for *alpha*-phenylacetoacetonitrile (APAAN), a pre-precursor for drugs.

The following examples show other main sources of the amendments made to the Nomenclature:

- **Technological progress** : Modification of the size criteria for newsprint of heading 48.01, amendment of the text and the structured nomenclature of heading 85.39 for light-emitting diode (LED) lamps, modification of the structured nomenclature of headings 87.02, 87.03 and 87.11 to reflect the technological changes in the automotive industry (hybrid, plug-in hybrid and all-electric vehicles), amendment to the scope of heading 85.42 to provide for multi-component integrated circuits (MCOs) as defined in new Note 9 (b) (iv) to Chapter 85. MCOs are advanced semiconductor devices that combine integrated circuits and discrete components into a single package. They are manufactured using semiconductor technology.
- **Trade patterns** : Deletion of some subheadings on account of the low volume of trade (see Annex A), modification (merging) of headings 69.07 and 69.08 to take account of the fact that the main subheadings within these headings concern products which are essentially no longer manufactured, whilst new products with a very high trade volume are classified under subheadings 6907.90 and 6908.90 "Other". Furthermore, the distinction between unglazed ceramic and glazed ceramic is not made nowadays within industry and trade.
- **Clarification of texts to ensure uniform application of the HS** : Amendment of the text of Subheading Note 1 to Chapter 16, of subheading 1901.10, of Subheading Notes 1 and 2 to Chapter 20 and of Note 3 to Chapter 21 for "infant food"; modification of the structured nomenclature of heading 40.10 for pneumatic tyres, of rubber, modification of the texts of the subheadings of heading 85.28 for monitors and projectors, capable of directly connecting to and designed for use with an automatic data processing machine of heading 84.71, regrouping of monopods, bipods and tripods and similar articles in heading 96.20.
- **Adaptation of the Nomenclature to reflect trade practice** : New subheadings have been created for mandarins (including tangerines and satsumas) and clementines in heading 08.05, for non-alcoholic beer in heading 22.02, for wine in containers holding more than 2 l but not more than 10 l" in heading 22.04 (for example, the so called bag-in-box or similar containers), for coenzyme Q10 (ubidecarenone (INN)) in heading 29.14, for sucralose in heading 29.32, for ethylene-alpha-olefins copolymers, having a specific gravity of less than 0.94 in heading 39.01 (also known as "linear low-density polyethylene (LLDPE)", for packaging grade polymers (e.g., for bottles) of poly(ethylene terephthalate) (PET) in heading 39.07, for poly(methylene phenyl isocyanate) (crude MDI, polymeric MDI) in heading 39.09.

The amendments therefore reflect changes in trade and technology but, in addition, they reinforce the multipurpose nature of the Nomenclature by taking account of the needs of the various users.

◦ ◦ ◦

The Council Recommendation of 11 June 2015 comprises **9 sets of amendments** to the Nomenclature in respect of heading 44.01 and certain subheadings of Chapter 44.

### **III. Assignment of code numbers to amend subheadings**

The HS Nomenclature's objectives include the facilitation of international trade and the collection, comparison and analysis of trade statistics. To achieve these objectives, the stability of the HS structure and the historical continuity of trade statistics have to be maintained.

Given the intervals at which the HS is reviewed and the scale of the amendments introduced in the framework of the previous review cycles and their impact on the structure of the HS Nomenclature, it proved necessary to lay down general principles regarding the numbering of new or modified subheadings and the reuse of deleted code numbers.

It was therefore decided to adopt the following rules **provided they are compatible with the structure of the HS** :

- (a) Code numbers are changed only where there is an amendment to the text of a heading or subheading **and** where there is a significant change of scope in the subheading(s) concerned.
- (b) The renumbering referred to in (a) above is confined to the **specific** subheadings (at one-dash level, fifth digit; or at two-dash level, sixth digit); the code numbers of those **residual** subheadings whose scope has been amended remain unchanged.
- (c) The code numbers of deleted subheadings are not reused until a certain period has elapsed, **unless** unavoidable.

It became clear, however, when finalizing the amended texts that the structure of the HS does not allow a uniform and systematic application of these principles, certain subheadings have been significantly modified in scope but retain the same code number (see Annex C). For example, the code numbers 0301.93, 0302.73, 0303.25, 0304.3, 0304.51, 0304.6, 0304.93, 0305.31, 0305.44 and 0305.64 have been maintained though the scope of these subheadings has been expanded to cover other main species of carp, as for example catla (*Catla catla*) and roho labeo (*Labeo rohita*)<sup>[1]</sup>.

It is also pointed out that not reusing the code numbers of deleted subheadings disrupts the continuity (systematic order of the code numbers) adopted when the HS Nomenclature was prepared and leads to gaps in the numbering. By way of example, heading 01.01 begins with subheading "0101.21" and not "0101.11".

\* \* \*

---

<sup>1</sup> In 2010, fisheries production of the two species of carp, namely *Catla catla* and *Labeo rohita*, reached more than 5 million tones. (FAO, 2012, *Revised Proposal for the Harmonized System 2017 Edition*).

## EXPLANATION OF THE AMENDMENTS

### Notes

The table below shows those parts of the Harmonized System, which are affected by the WCO Council Recommendation of 27 June 2014 to amend the Harmonized System. These amendments will come into effect on 1 January 2017. The Recommendation of 27 June 2014 also contains a few amendments to give legal effect to the corrigendum amendments which the WCO Council adopted in 2010, 2011 and 2012, to correct some editorial errors and technical inconsistencies in the texts of HS 2012 subheadings 0302.24, 0302.55, 0303.34, 0303.67, 0304.75, 0304.94, 0304.95, 0713.34 (French text only) and 5601.2. For the sake of completeness, these amendments have been included in the table below and have been identified by an asterisk (\*) in the right hand column.

The table also shows the amendments to the Nomenclature which were accepted as a result of the WCO Council Recommendation of 11 June 2015 to take into account the necessary corrections and some further amendments to the WCO Council Recommendation of 27 June 2014. These complementary amendments have been identified in the middle column by a plus sign (+) and the right hand column includes a particular explanation. These amendments will enter into force on 1 January 2018. However, the HS Contracting Parties are encouraged to apply these complementary amendments also from 1 January 2017.

The left hand column (HS 2012) contains the texts of relevant Section, Chapter or Subheading Notes, and headings and subheadings, as they presently exist (i.e., 2012 edition). The centre column contains the corresponding texts as they will read following the implementation of the Council Recommendation.

The underlined texts (except for the references to Chapters) indicate the HS 2017 amendments. However, editorial amendments have been omitted from this table and the left hand column shows the reference “[omitted]”.

It should be noted that the content of a heading or subheading may have changed without the text of a heading or subheading being amended. For example, the scope of a residual subheading may have been expanded because of the deletion of a specific subheading within the same heading. In that case the deleted subheading is shown in the left hand column, while the centre column shows the reference “[~~deleted~~]”; see, for example, subheading 9006.10.

HS 2012 CHAPTER 1.	HS 2017 CHAPTER 1.	REMARKS

<p>(ISO).</p> <p>2.- For the purposes of subheadings 3825.41 and 3825.49, "waste organic solvents" are wastes containing mainly organic solvents, not fit for further use as presented as primary products, whether or not intended for recovery of the solvents.</p>	<p>trichlorophenoxyacetic acid), its salts or its esters; tributyltin compounds.</p> <p>Subheading <u>3808.59</u> also covers dustable powder formulations containing a mixture of benomyl (ISO), carbofuran (ISO) and thiram (ISO).</p> <p>2:- Subheadings 3808.61 to 3808.69 cover only goods of heading 38.08, containing alpha-cypermethrin (ISO), bendiocarb (ISO), bifenthrin (ISO), chlorfenapyr (ISO), cyfluthrin (ISO), deltamethrin (INN, ISO), etofenprox (INN), fenitrothion (ISO), lambdacyhalothrin (ISO), malathion (ISO), pirimiphos-methyl (ISO) or propoxur (ISO).</p> <p>3:- Subheadings 3824.81 to 3824.88 cover only mixtures and preparations containing one or more of the following substances : oxirane (ethylene oxide), polybrominated biphenyls (PBBs), polychlorinated biphenyls (PCBs), polychlorinated terphenyls (PCTs), tris(2,3-dibromopropyl)phosphate, aldrin (ISO), camphechlor (ISO) (toxaphene), chlordane (ISO), chlordcone (ISO), DDT (ISO) (clofotenane (INN), 1,1,1-trichloro-2,2-bis(2-chlorophenyl)ethane), dieldrin (ISO, INN), endosulfan (ISO), endrin (ISO), heptachlor (ISO), mirex (ISO), 1,2,3,4,5,6-hexachlorocyclohexane (HCH (ISO)), including lindane (ISO, INN), pentachlorobenzene (ISO), hexachlorobenzene (ISO), perfluoroctane sulphonate acid, its salts, perfluoroctane sulphonamides, perfluoroctane sulphonyl</p>	

HS 2012	HS 2017	REMARKS
	fluoride or tetra-, penta-, hexa-, hepta- or octabromodiphenyl ethers.	
4.-	For the purposes of subheadings 3825.41 and 3825.49, "waste organic solvents" are wastes containing mainly organic solvents, not fit for further use as presented as primary products, whether or not intended for recovery of the solvents.	Expansion of the scope of subheading 3808.50 to cover the products listed in Subheading Note 1 to Chapter 38, facilitating the monitoring and control of the products consequential to the Rotterdam Convention.
3808.50 - Goods specified in Subheading Note 1 to this Chapter	<p>- Goods specified in Subheading Note 1 to this Chapter :</p> <p><u>3808.52</u> = DDT (ISO) (clofenoate (INN)), in packings of a net weight content not exceeding 300 g</p> <p><u>3808.59</u> = Other</p> <p>= Goods specified in Subheading Note 2 to this Chapter :</p> <p><u>3808.61</u> = In packings of a net weight content not exceeding 300 g</p> <p><u>3808.62</u> = In packings of a net weight content exceeding 300 g but not exceeding 7.5 kg</p> <p><u>3808.69</u> = Other</p>	<p>At the same time, subheading 3808.50 has been subdivided to create new subheading 3808.52 for DDT (ISO) (clofenoate (INN)), in packings of a net weight content not exceeding 300 g.</p> <p>Furthermore, new subheadings 3808.6 to 3808.69 have been created for certain products used as antimarial commodities. The scope of the new subheadings 3808.61 to 3808.69 has been defined in new Subheading Note 2 to Chapter 38.</p>
3812.30 - Anti-oxidising preparations and other compound stabilisers for rubber or plastics	<p>- Anti-oxidising preparations and other compound stabilizers for rubber or plastics :</p> <p><u>3812.31</u> = Mixtures of oligomers of 2,2,4-trimethyl-1,2-dihydroquinoline (TMQ)</p> <p><u>3812.39</u> = Other</p>	Subheading 3812.30 has been subdivided to create new subheading 3812.31 for mixtures of oligomers of 2,2,4-trimethyl-1,2-dihydroquinoline (TMQ).

HS 2012	HS 2017	REMARKS
- Mixtures and preparations containing oxirane (ethylene oxide), polybrominated biphenyls (PBBs), polychlorinated biphenyls (PCBs), polychlorinated terphenyls (PCTs) or tris(2,3-dibromopropyl) phosphate :	<p>- Goods specified in Subheading Note 3 to this Chapter :</p> <p>3824.81 -- Containing oxirane (ethylene oxide)</p> <p>3824.82 -- Containing polychlorinated biphenyls (PCBs), polychlorinated terphenyls (PCTs) or polybrominated biphenyls (PBBs)</p> <p>3824.83 -- Containing tris(2,3-dibromopropyl) phosphate</p> <p>3824.84 -- Containing aldrin (ISO)</p>	Expansion of the scope of subheading 3824.8 to cover the products listed in new Subheading Note 3 to Chapter 38, facilitating the monitoring and control of the products consequential to the Rotterdam Convention or Stockholm Convention.
3824.81 -- Containing polychlorinated biphenyls (PCBs), polychlorinated terphenyls (PCTs) or polybrominated biphenyls (PBBs)	3824.83 -- Containing tris(2,3-dibromopropyl) phosphate	At the same time, new subheadings 3824.84 to 3824.88 have been created facilitating the monitoring and control of these products consequential to the Stockholm Convention.
3824.82 -- Containing tris(2,3-dibromopropyl) phosphate	3824.84 -- Containing aldrin (ISO)	The scope of subheadings 3824.81 to 3824.88 has been defined in new Subheading Note 3 to Chapter 38.
3824.83 -- Containing tris(2,3-dibromopropyl) phosphate	3824.84 -- Containing aldrin (ISO)	Furthermore, subheading 3824.90 has been subdivided to create new subheading 3824.91 to facilitate the collection and comparison of data on the international movement of substances controlled under the Chemical Weapons Convention.
3824.90 - Other	<p>3824.85 -- Containing 1,2,3,4,5,6-hexachlorocyclohexane (HCH (ISO)), including lindane (ISO, INN) (ISO), heptachlor (ISO) or mirex (ISO)</p> <p>3824.86 -- Containing pentachlorobenzene (ISO) or hexachlorobenzene (ISO (ISO))</p> <p>3824.87 -- Containing perfluoroctane sulphonic acid, its salts, perfluoroctane sulphonamides, or perfluoroctane sulphonyl fluoride</p> <p>3824.88 -- Containing tetra-, penta-, hexa- hepta- or octabromodiphenyl ethers</p> <p>Other:</p> <p>3824.91 -- Mixtures and preparations consisting mainly of (5-ethyl-2-methyl-2-oxido-1,3,2-dioxaphosphinan-5-yl)methyl methyl(methylphosphonate and bis[(5-ethyl-2-methyl-2-oxido-1,3,2-dioxaphosphinan-5-yl)methyl]</p>	

HS 2012	HS 2017	REMARKS
	<u>methylphosphonate</u> 3824.99 = Other	The underlined text has been inserted as the consequential amendment to the creation of new heading <b>96.20</b> for monopods, bipods, tripods and similar articles.
CHAPTER 39.	CHAPTER 39.	
<b>Note 2 (z).</b>	<b>Note 2 (z).</b>  (z) Articles of Chapter 96 (for example, brushes, buttons, slide fasteners, combs, mouthpieces or stems for smoking pipes, cigarette-holders or the like, parts of vacuum flasks or the like, pens, propelling pencils, and monopods, bipods, tripods and similar articles).	  <b>Subheading Note 1 (a) (2).</b>  (2) The copolymers named in subheadings 3901.30, 3901.40, 3903.20, 3903.30 and 3904.30 are to be classified in those subheadings, provided that the comonomer units of the named copolymers contribute 95 % or more by weight of the total polymer content.
3901.90 - Other	<u>3901.40 - Ethylene-alpha-olefin copolymers, having a specific gravity of less than 0.94</u> 3901.90 - Other	New subheading 3901.40 has been created for ethylene-alpha-olefin copolymers, having a specific gravity of less than 0.94.
3907.60 - Poly(ethylene terephthalate)	<u>3907.61 - Poly(ethylene terephthalate);</u> <u>3907.69 = Having a viscosity number of 78 ml/g or higher</u> 3907.69 = Other	Subheading 3907.60 has been subdivided to create new subheading 3907.61 for poly(ethylene terephthalate), having a viscosity number of 78 ml/g or higher.

HS 2012	HS 2017	REMARKS
<u>3909.30</u> - Other amino-resins	<p>- Other amino-resins:</p> <p><u>3909.31</u> = Poly(methylene phenyl isocyanate) (crude MDI, polymeric MDI)</p> <p><u>3909.39</u> = Other</p>	Subheading 3909.30 has been subdivided to create new subheading 3909.31 for poly(methylene phenyl isocyanate) (crude MDI, polymeric MDI).
<u>CHAPTER 40.</u>	<u>CHAPTER 40.</u>	
<p>= Other, having a "herring-bone" or similar tread:</p> <p><u>4011.61</u> = Of a kind used on agricultural or forestry vehicles and machines</p> <p><u>4011.62</u> = Of a kind used on construction or industrial handling vehicles and machines and having a rim size not exceeding 61 cm</p> <p><u>4011.63</u> = Of a kind used on construction or industrial handling vehicles and machines and having a rim size exceeding 61 cm</p> <p><u>4011.69</u> = Other</p> <p>- Other:</p> <p><u>4011.92</u> = Of a kind used on agricultural or forestry vehicles and machines</p> <p><u>4011.93</u> = Of a kind used on construction or industrial handling vehicles and machines and having a rim size not exceeding 61 cm</p> <p><u>4011.94</u> = Of a kind used on construction or industrial handling vehicles and machines and having a rim size exceeding 61 cm</p> <p><u>4011.99</u> = Other</p>	<p><u>4011.70</u> = Of a kind used on agricultural or forestry vehicles and machines</p> <p><u>4011.80</u> = Of a kind used on construction or industrial handling vehicles and machines</p> <p><u>4011.90</u> = Other</p> <p><u>4011.91</u> = Of a kind used on construction or industrial handling vehicles and machines and having a rim size not exceeding 61 cm</p> <p><u>4011.95</u> = Of a kind used on construction or industrial handling vehicles and machines and having a rim size exceeding 61 cm</p>	<p>Restructuring of subheadings 4011.6 to 4011.99 in accordance with industry practice and to overcome the lack of alignment between the English and the French versions of the text of subheading 4011.6.</p>

83.08 <u>Clasps, frames with clasps, buckles, buckle-clasps, hooks, eyes, eyelets and the like, of base metal, of a kind used for clothing, footwear, awnings, handbags, travel goods or other made up articles; tubular or bifurcated rivets, of base metal; beads and spangles, beads and spangles, of base metal.</u>	83.08 <u>Clasps, frames with clasps, buckles, buckle-clasps, hooks, eyes, eyelets and the like, of base metal, of a kind used for clothing, footwear, awnings, accessories, footwear, jewellery, wrist-watches, books, awnings, leather goods, travel goods or saddlery or for other made up articles; tubular or bifurcated rivets, of base metal; beads and spangles, of base metal.</u>	The underlined text has been modified to clarify the scope of this heading.
<u>SECTION XVI.</u>	<u>SECTION XVI.</u>	
[omitted] French text only.	<u>Note 1 (a).</u> French text only.	Editorial amendment aligning the French text of Note 1 (a) to Section XVI on the English text. French text only.
	<u>Note 1 (q).</u>	The underlined text has been inserted as the consequential amendment to the creation of new heading <b>96.20</b> for monopods, bipods, tripods and similar articles.
	(q) Typewriter or similar ribbons, whether or not on spools or in cartridges (classified according to their constituent material, or in heading 96.12 if inked or otherwise prepared for giving impressions), or monopods, bipods, tripods and similar articles, of heading 96.20.	

HS 2012 CHAPTER 84.	HS 2017 CHAPTER 84.	REMARKS
<b>Notes 1 (f) and (g).</b>	<b>Notes 1 (f) to (h).</b>	New Note 1 (g) has been inserted to clarify the classification of radiators for the articles of Section XVII. Consequently, item (g) has been relettered as item (h).
(f) Electro-mechanical domestic appliances of heading 85.09; digital cameras of heading 85.25; or (g) Hand-operated mechanical floor sweepers, not motorised (heading 96.03).	(f) Electro-mechanical domestic appliances of heading 85.09; digital cameras of heading 85.25; (g) Radiators for the articles of Section XVII; or (h) Hand-operated mechanical floor sweepers, not motorised (heading 96.03).	The underlined text has been modified to align the text of Note 2 (e) with the text of heading 84.19.
<b>Note 2 (e).</b>	<b>Note 2 (e).</b>	Amendment made consequential to the renumbering of Note 8 to Chapter 85 as Note 9 to Chapter 85 in accordance with the insertion of new Note 3 to Chapter 85. At the same time, the expression "light emitting diodes" has been substituted by "light-emitting diodes (LED)" as an editorial amendment.
<b>Note 9 (A).</b>	<b>Note 9 (A).</b>	9.- (A) Notes 9 (a) and 9 (b) to Chapter 85 also apply with respect to the expressions "semiconductor devices" and "electronic integrated circuits", respectively, as used in this Note and in heading 84.86. However, for the purposes of this Note and of heading 84.86, the expression "semiconductor devices" also covers photosensitive semiconductor devices and light-emitting diodes (LED)".
<b>Subheading Notes 1 and 2.</b>	<b>Subheading Notes 1 to 4.</b>	New Subheading Note 1 has been inserted to define the term "machining centres" for the purposes of new subheading 8465.20. 1.- For the purposes of subheading 8465.20, the term "machining centres" applies only to machine-tools for working wood, cork, bone, At the same time, new Subheading Note 3 has

HS 2012	HS 2017	REMARKS
<p>conditions laid down in Note 5 (C) to Chapter 84 and which comprise at least a central processing unit, one input unit (for example, a keyboard or a scanner), and one output unit (for example, a visual display unit or a printer).</p> <p>2.- Subheading 8482.40 applies only to bearings with cylindrical rollers of a uniform diameter not exceeding 5 mm and having a length which is at least three times the diameter. The ends of the rollers may be rounded.</p>	<p>hard rubber, hard plastics or similar hard materials, which can carry out different types of machining operations by automatic tool change from a magazine or the like in conformity with a machining programme.</p> <p>2.- For the purposes of subheading 8471.49, the term "systems" means automatic data processing machines whose units satisfy the conditions laid down in Note 5 (C) to Chapter 84 and which comprise at least a central processing unit, one input unit (for example, a keyboard or a scanner), and one output unit (for example, a visual display unit or a printer).</p> <p>3.- For the purposes of subheading 8481.20, the expression "valves for oleohydraulic or pneumatic transmissions" means valves which are used specifically in the transmission of "fluid power" in a hydraulic or pneumatic system, where the energy source is supplied in the form of pressurised fluids (liquid or gas). These valves may be of any type (for example, pressure-reducing type, check type). Subheading 8481.20 takes precedence over all other subheadings of heading 84.81.</p> <p>4.- Subheading 8482.40 applies only to bearings with cylindrical rollers of a uniform diameter not exceeding 5 mm and having a length which is at least three times the diameter. The ends of the rollers may be rounded.</p>	<p>been inserted to clarify the classification of valves for oleohydraulic or pneumatic transmissions. Consequently, Subheading Notes 1 and 2 have been renumbered as Subheading Notes 2 and 4, respectively.</p>

HS 2012	HS 2017	REMARKS
8415.10 - <u>Window or wall types, self-contained or "split-system"</u>	8415.10 - Of a kind designed to be fixed to a window, wall, ceiling or floor, self-contained or "split-system"	The underlined text has been modified for clarification of the scope of subheading 8415.10.
<u>Heading 84.19. Heading text.</u> [omitted] French text only.	<u>Heading 84.19. Heading text.</u> French text only.	Editorial amendment aligning the French text of heading <b>84.19</b> on the English text. French text only.
- Other appliances :  8424.81 -- Agricultural or horticultural 8424.89 -- Other	- Agricultural or horticultural sprayers :  <u>8424.41</u> -- Portable sprayers <u>8424.49</u> -- Other - Other appliances : 8424.82 -- Agricultural or horticultural 8424.89 -- Other	Creation new subheadings 8424.41 and 8424.49 for agricultural and horticultural sprayers, separating portable sprayers (i.e., operator carried sprayers) from other sprayers (e.g., tractor mounted, trailer-mounted or self-propelled sprayers). Following the amendment of its scope, subheading 8424.81 was renumbered as subheading 8424.82.
		Amendment adopted as a result of the FAO proposal to enhance the data on trade and use of agricultural machinery.
8432.30 - Seeders, planters and transplanters 8432.40 - Manure spreaders and fertiliser distributors	- Seeders, planters and transplanters :  <u>8432.31</u> -- <u>No-till direct seeders, planters and transplanters</u>  <u>8432.39</u> -- Other - Manure spreaders and fertiliser distributors : <u>8432.41</u> -- <u>Manure spreaders</u> <u>8432.42</u> -- <u>Fertiliser distributors</u>	Subheading 8432.30 has been subdivided to create new subheading 8432.31 for no-till direct seeders, planters and transplanters.  At the same time, subheading 8432.40 has been subdivided to create new subheadings 8432.41 and 8432.42 for manure spreaders and fertiliser distributors, respectively.
		Amendment adopted as a result of the FAO proposal to enhance the data on trade and use of agricultural machinery.

HS 2012	HS 2017	REMARKS
<b>84.42 Machinery, apparatus and equipment (other than the <u>machine-tools</u> of headings 84.56 to 84.65) for preparing or making plates, cylinders or other printing components; plates, cylinders and other printing components; plates, cylinders and lithographic stones, prepared for printing purposes (for example, planed, grained or polished).</b>	<b>84.42 Machinery, apparatus and equipment (other than the <u>machines</u> of headings 84.56 to 84.65) for preparing or making plates, cylinders or other printing components; plates, cylinders and other printing components; plates, cylinders and lithographic stones, prepared for printing purposes (for example, planed, grained or polished).</b>	The underlined text has been modified for clarification, arising out of the expanding of the scope of heading <b>84.56</b> in the 2012 edition of the HS to cover water-jet cutting machines.
8456.10 - Operated by laser or other light or photon beam processes	- Operated by laser or other light or photon beam processes : 8456.11 - Operated by laser 8456.12 - Operated by other light or photon beam processes	Subheading 8456.10 has been subdivided to create new subheadings 8456.11 and 8456.12 for machines operated by laser, on the one hand, and machines operated by other light or photon beam processes, on the other hand.
8456.20 - Operated by ultrasonic processes	8456.20 - Operated by ultrasonic processes	At the same time, new subheadings 8456.40 and 8456.50 have been created to provide separately for machines operated by plasma arc processes and water-jet cutting machines, respectively.

<b>CHAPTER 85.</b>	<b>CHAPTER 85.</b>	
<b>Notes 3 to 9.</b>	<b>Notes 3 to 10.</b>	New Note 3 has been inserted to clarify the classification of electric accumulators presented with certain ancillary components, often referred to as "battery packs".
3:- Heading 85.09 covers only the following electro-mechanical machines of the kind commonly used for domestic purposes :	3:- For the purposes of heading 85.07, the expression "electric accumulators" includes those presented with ancillary components which contribute to the accumulator's function of storing and supplying energy or protect it from damage, such as electrical connectors, temperature control devices (for example, thermistors) and circuit protection devices. They may also include a portion of the protective housing of the goods in which they are to be used.	Consequently, Notes 3 to 9 have been renumbered as Notes 4 to 10, respectively.
(a) Floor polishers, food grinders and mixers, and fruit or vegetable juice extractors, of any weight;		At the same time, new Note 9 (b) (iv) has been inserted to define Multi-component integrated circuits (MCOs). This results in the expansion of the scope of heading <b>85.42</b> to include the MCOs defined by new Note 9 (b) (iv).
(b) Other machines provided the weight of such machines does not exceed 20 kg. The heading does not, however, apply to fans or ventilating or recycling hoods incorporating a fan, whether or not fitted with filters (heading 84.14), centrifugal clothes-dryers (heading 84.21), dish washing machines (heading 84.22), household washing machines (heading 84.50), roller or other ironing machines (heading 84.20 or 84.51), sewing machines (heading 84.52), electric	4:- Heading 85.09 covers only the following electro-mechanical machines of the kind commonly used for domestic purposes : (a) Floor polishers, food grinders and mixers, and fruit or vegetable juice	

HS 2012	HS 2017	REMARKS
<p>scissors (heading 84.67) or to electrothermic appliances (heading 85.16).</p> <p>4.- For the purposes of heading 85.23 :</p> <p>(a) "Solid-state non-volatile storage devices" (for example, "flash memory cards" or "flash electronic storage cards") are storage devices with a connecting socket, comprising in the same housing one or more flash memories (for example, "FLASH E2PROM") in the form of integrated circuits mounted on a printed circuit board. They may include a controller in the form of an integrated circuit and discrete passive components, such as capacitors and resistors;</p> <p>The term "smart cards" means cards which have embedded in them one or more electronic integrated circuits (a microprocessor, random access memory (RAM) or read-only memory (ROM)) in the form of chips. These cards may contain contacts, a magnetic stripe or an embedded antenna but do not contain any other active or passive circuit elements.</p>	<p>extractors, of any weight;</p> <p>(b) Other machines provided the weight of such machines does not exceed 20 kg. The heading does not, however, apply to fans or ventilating or recycling hoods incorporating a fan, whether or not fitted with filters (heading 84.14), centrifugal clothes-dryers (heading 84.21), dish washing machines (heading 84.22), household washing machines (heading 84.50), roller or other ironing machines (heading 84.20 or 84.51), sewing machines (heading 84.52), electric scissors (heading 84.67) or to electrothermic appliances (heading 85.16).</p>	<p>5.- For the purposes of heading 85.23 :</p> <p>(a) "Solid-state non-volatile storage devices" (for example, "flash memory cards" or "flash electronic storage cards") are storage devices with a connecting socket, comprising in the same housing one or more flash memories (for example, "FLASH E2PROM") in the form of integrated circuits mounted on a printed circuit board. They may include a controller in the form of an integrated circuit and discrete passive components, such as capacitors and resistors;</p> <p>The term "smart cards" means cards which have embedded in them one or more electronic integrated circuits (a microprocessor, random access memory (RAM) or read-only memory (ROM)) in the form of chips. These cards may contain contacts, a magnetic stripe or an embedded antenna but do not contain any other active or passive circuit elements.</p> <p>5.- For the purposes of heading 85.34 "printed circuits" are circuits obtained by forming on an insulating base, by any printing process (for example, embossing, plating-up, etching) or by the "film circuit" technique, conductor elements, contacts or other printed components (for example, inductances, resistors, capacitors) alone or interconnected</p>

HS 2012	HS 2017	REMARKS
according to a pre-established pattern, other than elements which can produce, rectify, modulate or amplify an electrical signal (for example, semiconductor elements).	stripe or an embedded antenna but do not contain any other active or passive circuit elements.	
The expression "printed circuits" does not cover circuits combined with elements other than those obtained during the printing process, nor does it cover individual, discrete resistors, capacitors or inductances. Printed circuits may, however, be fitted with non-printed connecting elements.	6.- For the purposes of heading 85.34 "printed circuits" are circuits obtained by forming on an insulating base, by any printing process (for example, embossing, plating-up, etching) or by the "film circuit" technique, conductor elements, contacts or other printed components (for example, inductances, resistors, capacitors) alone or interconnected according to a pre-established pattern, other than elements which can produce, rectify, modulate or amplify an electrical signal (for example, semiconductor elements).	The expression "printed circuits" does not cover circuits combined with elements other than those obtained during the printing process, nor does it cover individual, discrete resistors, capacitors or inductances. Printed circuits may, however, be fitted with non-printed connecting elements.
Thin- or thick-film circuits comprising passive and active elements obtained during the same technological process are to be classified in heading 85.42.		Thin- or thick-film circuits comprising passive and active elements obtained during the same technological process are to be classified in heading 85.42.
6.- For the purpose of heading 85.36, "connectors for optical fibres, optical fibre bundles or cables" means connectors that simply mechanically align optical fibres end to end in a digital line system. They perform no other function, such as the amplification, regeneration or modification of a signal.	6.- Heading 85.37 does not include cordless infrared devices for the remote control of television receivers or other electrical equipment (heading 85.43).	7.- For the purpose of heading 85.36, "connectors for optical fibres, optical fibre bundles or cables" means connectors that simply mechanically align optical fibres end to end in a digital line system. They perform no other function, such as the amplification,
8.- For the purposes of headings 85.41 and 85.42 :	(a) "Diodes, transistors and similar semiconductor devices" are semiconductor devices the operation of

## INTRODUCTION

This section contains the Tables correlating the 2012 and 2017 editions of the Harmonized System, as drawn up by the World Customs Organization Secretariat in accordance with instructions received from the Harmonized System Committee.

Though these Tables were examined by the Harmonized System Committee, they are not to be regarded as constituting classification decisions taken by that Committee; they constitute a guide published by the Secretariat and whose sole purpose is to facilitate implementation of the 2017 edition of the Harmonized System. **They have no legal status.**

During the discussions within the Review Sub-Committee and the Harmonized System Committee aimed at amending the HS Nomenclature, several differing views emerged concerning the present classification of certain goods, without the Committee ruling officially on their classification. It was agreed that the Tables should be as comprehensive as possible and thus include correlations supported by several Contracting Parties. **The Correlation Tables might be subject to further amendments or changes.** The most recent version is published on the WCO Web site ([www.wcoomd.org](http://www.wcoomd.org)).

**Table I** establishes the correlation between the 2017 edition and the 2012 edition of the HS. It contains remarks opposite certain correlations briefly specifying the nature of the goods transferred. In many cases, reference has also been made to the amended legal provisions. Table I comprises the correlation resulting from both the amendments to the Nomenclature which have been accepted as a result of the WCO Council Recommendation of 27 June 2014 and the complementary amendments to the Nomenclature which have been accepted as a result of the WCO Council Recommendation of 11 June 2015.

The left-hand column of Table I refers to the HS 2017 code numbers whose scope has been changed compared with HS 2012, or which have been introduced as new entries. The middle column contains the corresponding HS 2012 code numbers, and may be preceded by "ex". This prefix indicates that the corresponding HS 2017 entry contains only part of the referenced subheading. For example, the new subheadings 0304.56 and 0304.57 contain a part of the HS 2012 code number 0304.59 which is, therefore, preceded by "ex". The other part of HS 2012 code number 0304.59 is covered by subheading 0304.51, the scope of which has been expanded, or remains in subheading 0304.59.

In some cases, however, the code number has been changed though its content remains the same. For example, subheadings 2939.71 and 2939.79 (HS 2017) have the same scope as HS 2012 code numbers 2939.91 and 2939.99, respectively. The renumbering was necessary because of the expansion of the scope of heading 29.39.

In other cases, the code number has not been changed, although the scope of the subheading did change, in particular when it concerned so-called residual subheadings. For example, code number 8472.90 has not been changed, despite the fact that the subheading now also covers the content of HS 2012 heading 84.69 (deletion of heading 84.69 due to the low volume of trade).

**Table I - Annex** shows the correlation between the 2017 edition and the 2012 edition of Chapter 44 of the HS, as it reads after the amendment by the Council Recommendation of 27 June 2014 only. Table I - Annex is valid from 1 January 2017 to 31 December 2017 for Contracting Parties which are not able to implement the complementary amendments to Chapter 44 before 1 January 2018.

**Table II** establishes the correlation starting from the 2012 edition to the 2017 edition of the HS. It is simply a mechanical transposition of Table I and therefore includes no remarks. This Table II comprises the correlation resulting from (1) the amendments to the Nomenclature which have been accepted as a result of the WCO Council Recommendation

of 27 June 2014 and (2) the complementary amendments to the Nomenclature which have been accepted as a result of the WCO Council Recommendation of 11 June 2015.

Table II contains the HS 2012 code number references in the left-hand column, with the corresponding HS 2017 entry in the right-hand column. The prefix "ex" is used in the same way as it has been used in Table I, i.e., to indicate that only a part of the subheading concerned is covered by the code number referred to in the left-hand column.

**Table II - Annex** shows the correlation starting from the 2012 edition to the 2017 edition of Chapter 44 of the HS, as it reads after the amendment by the Council Recommendation of 27 June 2014 only. Table II - Annex is valid from 1 January 2017 to 31 December 2017 for Contracting Parties which are not able to implement the complementary amendments to Chapter 44 before 1 January 2018.
